President Obama will open the event on September 29th. In a moderated conversation, President Obama will touch on his time in office and his thoughts on leadership in the world. Elected on November 4, 2008, he took office at a moment of crisis unlike any America had seen in decades "" a nation at war, a planet in peril, the American Dream itself threatened by the worst economic calamity since the Great Depression. And yet, despite all manner of political obstruction, Obama's leadership helped rescue the economy, revitalize the American auto industry, reform the health care system to cover another twenty million Americans, and put the country on a firm course to a clean energy future "" all while overseeing the longest stretch of job creation in American history. In his post-presidency, the former president is carrying on his lifelong goal to empower people to come together and change the world. It's the same principle that Bits & Pretzels stands for: Every year 5,000 people travel to Munich to find community, to help and learn from each other and the speakers that the Bits team presents on stage.
